

# DAM Homework (I)

2017-09-20

- Build your own music data-base
- Requirements:
  - multimedia combination:  
**music + image + text**
  - Select **2** domains (or categories):
    - **your favorite music** or **songs**,
    - **dislike (common, so so) music** or **songs**
  - Collect **>100** examples for each domain:
    - Use **google** or **baidu** to search all required data

- Hand out
  - Deadline: 12:00PM, 2017-10-10
  - Data format:
    - one main folder (named by **your ID**)
    - several subfolders (named by **chosen domain**)
      - data in the same category should be installed in 1 subfolders
  - **Unique** data file format:
    - **.mp3** (music)
    - **.txt** (text document),
    - **.png** (image)
  - File name:
    - ####.mp3, ####.txt, ####.png
    - media correspondence, e.g.,  
023.mp3 <=> 023.txt <=> 023.png

# Data upload

- 百度云盘
  - 创建账号
  - 上传内容
  - 分享链接
- 助教邮箱
  - [damzju@163.com](mailto:damzju@163.com)

# Later ...

- All data will be upload to the Raspberry PI
